

HPC milling cutter

Special tooling for customer applications

Example 1:

Monolithic steel design

Diameter 200 mm, no. of cutting edges = 33, HSK 63-A with flange dia. = 80 mm

Weight: 9 kg

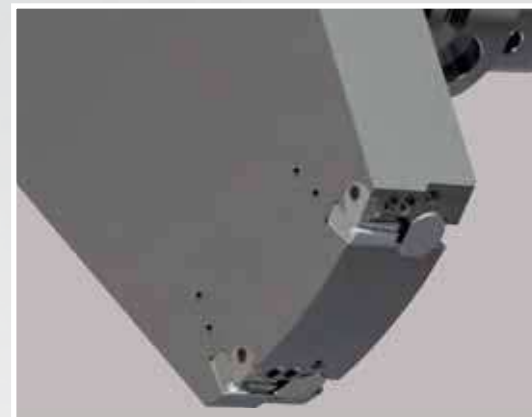

Application:
Crankcase, milling of combustion chamber side

Example 2:

„Bar cutter“ for limited space in the tool magazine

Diameter 226 mm, no. of cutting edges = 2x2, HSK 63-A

Application:
Face milling of a valve plate on a MC,
complete coverage required
