

H HPC milling cutters

Features and advantages

THE ULTIMATE EVOLUTION!

Features:

- Extremely high number of cutting edges (i.e. dia. 63 mm → Z = 12; dia. 125 mm → Z = 27)
- Easy to set – precision adjustable cutting edges
- Replaceable PCD inserts and carbide chip guiding elements
- Wear-resistant steelbody, modular design
- PCD cutting inserts are regrindable up to 10 times
- Enclosed chip flute design

Advantages:

- Virtually chip-free components, lower cleaning costs
- Reduced tooling costs per component
- Extremely high feed rates (up to 60,000 mm/min)
- Lower machine investment for new projects
- Tool life improvement by factor 2 to 5
- High productivity and energy efficiency

HPC-Fräser - Die Spitze der Evolution!

Schneller, sauberer, effizienter - HPC-Fräser von Hoffelder-Gühring!
